SUMMARY

Motivated Mechatronics Engineering student with a strong interest in Java programming, Data Structures & Algorithms, Internet of Things (IoT), microcontrollers, embedded systems, and AI-assisted web development. Passionate about continuous learning, applying technology to solve real-world problems, and building practical solutions through hands-on projects.

EDUCATION

Bachelor of Engineering – Mechatronics Engineering <i>Rajalakshmi Engineering College, Chennai.</i>	2025-2029 CGPA - 9.1/10
12th Grade – Tamil Nadu State Board <i>Seventh Day Adventist Matriculation Higher Secondary School, Chengalpattu.</i>	2024-2025 Percentage -91%
10th Grade – Tamil Nadu State Board <i>Little Jacky Matriculation Higher Secondary School, Chengalpattu.</i>	2024-2025 Percentage -90%

SKILLS

- **Programming Languages:** Java, C, Python
- **Web Development:** HTML (Basic), CSS (Basic), JavaScript (Basic)
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms
- **Embedded Systems & IoT:** Arduino, Internet of Things (IoT)
- **Tools:** Git, GitHub, AutoCAD, Arduino IDE

PROJECTS

GITHUB: vijayakumar-14 (Vijaya Kumar) 🌐

1. College Portfolio – Capture X Code (HTML, CSS, JavaScript, GitHub Pages)

- Developed a college portfolio website showcasing campus locations and facilities.
- Customized the interface by modifying HTML, CSS, and JavaScript.
- Deployed the project using GitHub Pages.

2. Arduino Door Lock System (Arduino IDE, Servo Motor)

- Designed a password-based door lock system using Arduino simulation.
- Simulated servo motor operation for locking and unlocking.
- Explored embedded systems and IoT fundamentals

3. Java To-Do List Application (Java)

- Developed a menu-driven console-based To-Do List application.
- Implemented features to add, view, and delete tasks.
- Applied Java fundamentals and object-oriented programming concepts.

4. Anti-Bunk Attendance Tracker (HTML, CSS, JavaScript)

- Developed a web-based attendance tracker to help students monitor attendance percentage.
- Calculated attendance statistics and estimated allowable leave based on attendance requirements.
- Designed a simple and user-friendly interface for quick attendance tracking.

CERTIFICATIONS AND COMPETITIVE PROGRAMMING

Certification

- NPTEL – Problem Solving Using C Programming

Competitive Programming

- LeetCode – Solved **50+** coding problems.
